Smudg   *Mumbai, Maharashtra*

Web Developer   Feb 2024 - Jun 2024
Upwork   *Mumbai, Maharashtra*
- Led the development and launch of an e-commerce platform using Figma and Shopify, resulting in a 17% increase in the overall online sales.
- Augmented the front-end design that produced a UI that is 40% more interactive.
- Contrived payment gateways which in-turn resulted in making transactions 50% easier.
- Streamlined data retrieval processes in the admin panel and resolved bugs and technical issues efficiently.

Technical Head   Oct 2022 – Sept 2023
SAHAS Council (Student's Association of Humanities and Science)   *Mumbai, Maharashtra*
- Oversaw and coordinated technical as well as technological efforts in all the events.
- Conducted events and worked with teams to improve the council's visual identity.
- Contributed considerably to event promotion and maintaining vibrancy in the college community.

Maker Relations Executive   Oct 2022 – Jan 2023
Maker Mela   *Mumbai, Maharashtra*
- Concentrated on broadening our maker network and streamlining communication for our annual event.
- Spearheaded outreach efforts to draw in new makers, ensuring their active involvement through consistent engagement.
- Worked closely with teams and played a pivotal role in fostering the expansion of our maker community.

PROJECTS

Culina Share | *React.js · Express.js · Node.js · Tailwind CSS*
- Culina Share is a web application designed to elevate your culinary journey by offering a seamless platform to discover, search, and save your favorite recipes from various cuisines.
- Powered by modern technologies, Culina Share provides a user-friendly interface and robust functionalities to enhance your cooking experience.
- The project consists of features such as: Discovering, Searching, Saving as Favorites and Viewing all the Favorite recipes.

Grievance System | *Python · Flask · Bootstrap*
- The Python-based automatic particular seat grievance registration system facilitates the filing of complaints about sitting in public or private settings.
- Users can report problems quickly with this method, and they will be documented right away for future adjustment. For each seat, a QR Code would be allotted, which could be scanned in order to submit a complaint via the internet.
